U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on AUGUST 19, 1979
- Export Shipments in
Current Marketing Year
- Daily Sales Reported
AUGUST 20 - 26, 1979
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of August 30 (based on reports from exporters for the week ending August 19).

Wheat: New sales activity continues slow with a net increase of 342,400 metric tons (MT). Yugoslavia was the major buyer with their initial purchase of the marketing year (MY) (142,000 MT of Hard Red Winter). Minor changes in outstanding contract balances to various other countries resulted from contract adjustments or small purchases. Sales previously reported to unknown dropped significantly as 500,000 MT were switched to the Soviet Union. Exports increased moderately as 808,300 MT were lifted during the week.

Corn: Interest in current marketing year (MY) supplies remains fairly inactive with a net increase in commitments of 540,200 MT. Japan, Canada, Brazil, Nigeria and the U.K. were the principal buyers. Numerous contract adjustments and changes in destinations resulted in minor adjustments in outstanding contract balances with several countries. MY 1979/80 sales were fairly light with a net increase of only 110,800 MT. European countries were the only significant buyers. Exports of 1,276,200 MT brings the yearly exports to eighty-five (85) percent of the export projection.

Barley: Export market interest was fairly heavy as the USSR added 30,000 MT to earlier purchases while Japan made their initial purchase (14,000 MT) for the MY.

Sorghum: Importer interest in U.S. sorghum supplies was active. Mexico bought 81,700 MT for current MY delivery and 110,000 MT for MY 1979/80. Japan also added modest purchases for both MY's. Exports (87,800 MT) were down from the preceding week's high level.

Rice: The commercial export sector was quiet as the only noteworthy event was the shift of 10,700 MT from unknown to Iran. This parcel accounted for about a third of the week's exports. Most of the rest of the sales activity was confined to PL-480 sales; Haiti 9,000 MT and Somalia Republic 6,400 MT.

Soybeans: Net sales (6,000 MT) were at a yearly low as importer interest was concentrated on MY 1979/80. Sales of 78,700 MT to unknown were switched to the Netherlands for MY 1978/79. Sales (187,900 MT) for MY 1979/80 were scattered across a number of countries with Japan the largest buyer. Exports (231,700 MT) though down, continued at a moderate pace due to shipments to Europe and Japan.

Soybean Cake and Meal: Sales (24,700 MT) were low with Bulgaria the primary purchaser. Exports (110,000 MT) continued their moderate pace with the EC accounting for over half.

Soybean Oil: Net sales (2,500 MT) were modest as contract adjustments in sales to unknown destinations partially offset a sale of 10,500 MT to Bangladesh. Exports (4,300 MT) though up, remained low.

Cotton: Sales activity improved a little but remains slow. MY 1979/80 sales increased by 100,100 RB with principal purchases by Canada (30,000 RB), China-Mainland (19,900 RB), Hong Kong (12,500 RB), Korea (12,000 RB) and Japan (10,100 RB). Exports strengthened to 124,200 RB - 66 percent going to Asia, 19 percent to Europe and 12 percent to Western Hemisphere.

Oats and Rye: Showed no significant activity.

DATA ON TRANSACTIONS REPORTED UNDER THE DAILY REPORTING SYSTEM FOR AUGUST 20-26, 1979, APPEAR ON PAGE 6.
